Chapter 1: Introduction Chapter 2: International Investment and Foreign Direct Investment Chapter 3: Culture and Business Chapter 4: World Economy Chapter 5: Global and Regional Economic Cooperation and Integration 6 Chapter 6 : International Monetary System 7 Chapter 7: Events and Global Capital MarketsGlobal Competitive Advantage Submit Supporting Resources International Business is one of the most challenging and interesting courses you can teach in business school. Teaching a relevant, dynamic, and comprehensive course requires a textbook written by authors who are as passionate and knowledgeable about international affairs as you are. Carpenter and Danung's book International Business: Opportunities and Challenges of a Flat World examines the challenges of establishing, managing, and developing global organizations in an increasingly flat world. The authors define a "flat world" as one in which the service industry overtakes manufacturing in scale and reach, the Internet permeates life and work, and networks define modern businesses, whether in services or manufacturing. Carpenter and Dunung's text is aimed at technology-savvy students who view national borders as bridges rather than barriers. Using the vocabulary of international business, the authors also develop students' knowledge of the international context so that they can establish, lead, and operate in any organization that is globally focused (or faces global competition or other global threats). . . .) The textbook consists of 5 sections: Section 1 introduces the course on global business and ends with a chapter on seizing global opportunities. Unit 2 develops the student's knowledge of key aspects of the global business environment, while Unit 3 develops knowledge of how a student or organization can take advantage of the opportunities in this global environment. Section 4 focuses on doing business in a flat world: This section examines why the business environment is changing and considers how to identify and exploit business opportunities. adosehiyikopu Section 5 shows how key organizational activities are managed to achieve effective global operations. donaxevusa
