The Littles is a children's book series created by American author John Peterson. First published in 1967, the series follows the adventures of the Little family, tiny humanoid creatures with mouse-like features, as they live in the walls of human houses. The series was adapted into an animated TV show that aired on ABC from 1983 to 1985 and included a feature film titled Here Come the Littles. The books and TV series share similar themes, featuring the Little family's attempts at good deeds for humans while navigating their own mischief and adventures. Key characters include William and Wilma Little, their children Tom and Lucy, Uncle Pete, and various relatives such as Cousin Dinky and his wife Della. The series explores the personalities of each character, including Tom and Lucy's efforts to do good, Dinky's clumsy flying escapades, and Tracy's rebellious behavior. Henry Bigg is the boy who shares his home with The Littles. Although he never discovers them in the book series, in the cartoon adaptation, he becomes one of the few people aware of their existence. The TV series initially kept Henry's knowledge of the Littles a secret, but later episodes revealed that Tom and Lucy accidentally fell into his suitcase during a move, prompting Henry to discover them. Throughout the show, Henry takes great care to keep the Littles' presence hidden from others, including his parents. When emergencies arise, Tom and Lucy use Henry's pet turtle, Slick, as a messenger by tying notes on its back. Slick often wears roller skates, which can lead to comedic mishaps. In one notable episode, Henry temporarily betrays the Littles after learning that doing so would earn him a TV appearance. However, this incident was later revealed to be just a dream of Dinky's. The series also explores Henry's friendships with the Littles and his pet turtle, Slick. The original book series by Roberta Carter Clark, published from 1967 to 1993, includes titles such as "The Littles," "The Littles Take A Trip," "The Littles To the Rescue," and more.
