Origins staff upgrade guide

Looking for the best guide for upgrading your staffs in Origins? This quick guide covers everything you need to know, from finding pieces to completing the upgrade process. 1. Find record - Randomly located around Generator 2, for example on table of entrance to room or shelf next to mystery box. 2. Gather staff pieces - Dig dirt/bone piles around map with shovel. 3. Obtain gramophone from excavation and get crystal in ice tunnel. 4. Build staff under excavation. 5. Shoot patterns in Agartha with Ice staff to turn stones correctly using chart above. 6. Freeze 3 tomb stones with Ice staff then break them with bullet gun - locations in chart. 7. Turn circular stones under excavation to all blue. 8. Shoot ball with Ice staff. 9. Place staff in pedestal in Agartha, feed 20 zombies, and you are done. You need to go to fire room after opening starting room door. Then go to staff room and build on red podium. Staff upgrade in crazy place. First step: kill zombies, light up candles. Second step: go to church, see numbers on wall, light up same number of candles as before. Third step: activate 4 levers, shoot fire orb at target. Fourth step: go back to crazy place, put staff in red platform and kill 50 zombies with secondary weapon. Staffs gain special abilities when re-upgraded. Wind staff can be found by entering three robots walking around map. Disc and lightning staff locations vary, but usually near generator 5 on boxes or in wind tunnel. you can only get the ice staff when its snowing part1first part will be after you start the tank at generator 6 (cost 500) in the area that is entirely covered in mud where the tank goes there should be some wooden stairs. jump on them go forward and theres the first lightning staff partpart2second part will be in the next ride and if you dont know behind the mp40 there is a door that leads to generator 2. if you took the tank one time the next time the tank will spawn there i recommend 2 players on this one since there are 2 parts to get on the same ride. second part is in no man s land (next to pack-a-punch) you will see a wooden platform. jump on it go forward and get the second partpart3third staff part will be in the same ride as the second one before the tank stops at generator 6 on the right side there will be a platform that you must jump on and there will be the last partafter you gather the parts go into the lightning staff room which will be near generator 5 and grab the purple gemafter you gathered the gem also go into the staff room and build the staff on the purple podium ice stafflast but not least the ice staff is most peoples choice because not only does it do damage but it also slows down zombies.how to get ice staff parts you need shovel and you can get 2 shovels in the starting room one next to balista and one next to generator 3 door other shovels will be in wind staff room near shield crafting table and one near generator 6 downstairs next to maxis drone table or behind stairsdisc the disc will be located in destroyed building next to generator 2 on shelves with glowing rocks next to mystery box or on shelves to right of exit for tankfirst part first part can be digged near generator 2 or 3 depends on your luck but most of times its in generator 2 dig site. second part if you got the part at generator 2 dont search at generator 3. the second staff part will be scattered around map and i m sorry but i really dont know locations. just look for it everywhere around map where dig sites arethird part third and last part will be located in a dig site near gen 6 downstairs if its snowing there should be 1 dig site in one of those 3 locations next to church or near tank behind it or in front of it near muddy area or near generator 6 To enhance your browsing experience, native speaker) Reddit and its partners employ cookies and related technologies.
