===== The Lacrimosa tour dates are announced for 2025, with the band performing in various cities across Germany and other European countries. LACRIMOSA becomes the most successful Independent act in the world with over a million sold albums, chart success and numerous awards. Instead of detailing their decade-long journey, LACRIMOSA launched a new project after returning from their "Elodia-tour" in January 2000. Tilo Wolff and Anne Nurmí collaborated on a symphony that combined orchestra, choirs, solo instruments, and a rock band. This innovative work broke all traditional music boundaries while maintaining the distinct LACRIMOSA identity. The lyrics, often written as personal reflections, served as inspiration for this music. On "Fassade", Tilo Wolff and Anne Nurmí delved into human psychology and spirituality in their intense analyses. After five months of studio work in Berlin and Hamburg, they created a unique symphony that portrayed the struggles and state of individuals in modern society. The recording process involved renowned musicians from diverse musical backgrounds, including Opera, Classic, Metal, Rock, and Jazz. The German Film Orchestra Babelsberg and Philharmonic Orchestras contributed to the intimate atmosphere. This blend of talents brought the music alive through personal emotions. Musically, "Fassade" reaches new dimensions with its complex arrangements that convey human emotions. The composition's language is both poetic and powerful, creating an immersive experience for listeners. The dominant vocals of Tilo Wolff and Anne Nurmí guide the listener through intense emotional fluctuations, from cruelty to beauty. LACRIMOSA's symphony "Fassade" showcases their artistic depth and musical prowess. ===== Bogota, Mexico City and Santiago to close the Leidenschaft Tour 2023 The final leg of the Leidenschaft Tour 2023 will take place on November 4th in Beijing, China, marking the end of a 12-month tour.
