Regarded as one of the greatest and most influential rappers of all time,[3] he is credited with popularizing hip-hop in Middle America and breaking down racial barriers for the acceptance of white rappers in popular music. While much of his transgressive work during the late 1990s and early 2000s made him a controversial figure, he came to be a representation of popular angst of the American underclass.After the release of his debut album Infinite (1996) and the extended play Slim Shady EP (1997), Eminem signed with Dr. Dre's Aftermath Entertainment and subsequently achieved mainstream popularity in 1999 with The Slim Shady LP. His next two releases, The Marshall Mathers LP (2000) and The Eminem Show (2002), became worldwide successes; the latter was the best-selling album worldwide of that year, and remains the best-selling hip-hop album in history. Following the release of Encore (2004), Eminem went on hiatus, largely due to a prescription drug addiction.[4] He returned to the music industry with the releases of Relapse (2009) and Recovery (2010), the latter becoming the best-selling album worldwide of 2010. Each of his subsequent releasesThe Marshall Mathers LP 2 (2013), Revival (2017), Kamikaze (2018), Music to Be Murdered By (2020), and The Death of Slim Shady (Coup de Grce) (2024)have debuted atop the US Billboard 200.Eminem was also a member of the hip-hop groups New Jacks, Soul Intent, Outsidaz, and D12, and has collaborated with fellow Detroit-based rapper Royce da 5'9" to form the duo Bad Meets Evil. He starred in the 2002 musical drama film 8 Mile, in which he played a dramatized version of himself. "Lose Yourself", a song from its soundtrack, topped the Billboard Hot 100 for 12 weeksthe most for a solo rap songand won an Academy Award for Best Original Song, making him the first hip-hop artist ever to win the award.[5] Eminem also co-founded Shady Records, which helped launch the careers of artists such as D12, 50 Cent, and Obie Trice. He established his own Sirius XM Radio channel, Shade 45, and opened a restaurant, Mom's Spaghetti.Eminem is among the best-selling music artists of all time, with estimated worldwide sales of over 220million records. He was the first musical act to have ten albums consecutively debut at number one on the Billboard 200 chart,[6] and has had five number-one singles on the Billboard Hot 100.[7] He is one of the highest-certified music artists in the United States, with three of his albums and four of his singles being certified diamond by the Recording Industry Association of America (RIAA).[8] Eminem's accolades include 15 Grammy Awards, eight American Music Awards, 17 Billboard Music Awards, a Primetime Emmy Award, and an induction into the Rock and Roll Hall of Fame in his first year of eligibility. Billboard named him the Artist of the Decade (2000s) and Rolling Stone ranked him among the greatest artists and greatest songwriters of all time.Marshall Bruce Mathers III was born on October 17, 1972, in St. Joseph, Missouri, the only child of Marshall Bruce Mathers Jr. and Deborah "Debbie" Nelson. His mother nearly died during her 73-hour labor with him. Eminem's parents were in a band called Daddy Warbucks, playing in Ramada Inns along the DakotasMontana border before they separated. His father abandoned his family when Eminem was a year and a half old, and Eminem was raised only by his mother in poverty.[9] He wrote letters to his father, but Debbie said that they all came back marked "return to sender".[10]By the age of twelve, Eminem and his mother shuttled between states, rarely staying in one house for more than a year or two and mostly living with family members, moved several times and lived in St. Joseph; Savannah, Missouri; Kansas City; Warren, Michigan; and Roseville, Michigan[11] before settling in Detroit.[12] For much of his youth, Eminem and his mother lived in a bungalow-style house in a working-class, primarily black, neighborhood in Detroit. He and Debbie were one of three white households on their block, and Eminem was beaten several times by black youths.[10] His mother had a son named Nathan "Nate" Kane Samara in 1986 with then-boyfriend Fred Samara.[13][14][15] In 2013, the State of Michigan demolished his childhood home after it was damaged by arson.[16][17]Eminem frequently fought with his mother, whom a social worker described as having a "very suspicious, almost paranoid personality".[18]:3 When he was a child, a bully named D'Angelo Bailey severely injured Eminem's head in an assault,[19] an incident which Eminem later recounted on the song "Brain Damage". Debbie filed a lawsuit against the public school for this in 1982. The suit was dismissed the following year by a Macomb County, Michigan, judge, who said the schools were immune from lawsuits.[18]:2Eminem was interested in storytelling, aspiring to be a comic book artist before discovering hip-hop.[20] He heard his first rap song, "Reckless", on the Breakin' soundtrack, a gift from Debbie's half-brother, Ronnie Polkingharn. His uncle was close to the boy and later became a musical mentor to him. Following Polkingharn's suicide in 1991, Eminem stopped speaking publicly for days and did not attend his funeral.[10][21]At age 14, Eminem began rapping with high-school friend Mike Ruby; they adopted the names "Manix" and "M&M", the latter evolving into "Eminem".[21][18]:4 Eminem snuck into neighboring Osborn High School with friend and fellow rapper Proof for lunchroom freestyle rap battles.[22]:119 On Saturdays, they attended open mic contests at the Hip-Hop Shop on West 7 Mile Road, considered "ground zero" for the Detroit rap scene.[10] Struggling to succeed in a predominantly black industry, Eminem was appreciated by underground hip-hop audiences.[21][23][24] When he wrote verses, he wanted most of the words to rhyme; he wrote long words or phrases on paper and, underneath, worked on rhymes for each syllable. Although the words often made little sense, the drill helped Eminem practice sounds and rhymes.[25]In 1987, Debbie allowed runaway Kimberly Anne "Kim" Scott to stay at their home. Several years later, Eminem began an on-and-off relationship with Scott.[18]:4 After spending three years in ninth grade due to truancy and poor grades,[26] 17-year-old Eminem dropped out of Lincoln High School. Although interested in English, Eminem never explored literature, preferring comic books, and he disliked math and social studies. He states that he later received a GED.[25] Eminem worked at several jobs to help his mother pay the bills, one of which was at Little Caesar's Pizza in Warren.[27] He later said she often threw him out of the house anyway, often after taking most of his paycheck. When she left to play bingo, he would blast the stereo and write songs.[10]In 1988, he went by the stage name MC Double M and formed his first group, New Jacks, and made a self-titled demo tape with DJ Butter Fingers.[1][28][29] In 1989, they joined Bassmint Productions who later changed their name to Soul Intent in 1992 with rapper Proof and other childhood friends.[30] They released a self-titled EP in 1995 featuring Proof.[21] Eminem also made his first music video appearance in 1992 in a song titled, "Do-Da-Dippity", by Champtown. Later in 1996, Eminem and Proof teamed up with four other rappers to form The Dirty Dozen (D12), who released The Underground E.P. in 1997 and their first album Devil's Night in 2001.[10] He was also affiliated with Newark's rap collective Outsidaz, collaborating with them on different projects.[31]In 1995, Eminem was signed to Jeff and Mark Bass' F.B.T. Productions and in 19951996 recorded his debut album Infinite for their independent Web Entertainment label.[22]:15 The album was a commercial failure upon its release in 1996.[32] During this period, Eminem's rhyming style, primarily inspired by rappers Nas, Esham and AZ, lacked the comically violent slant for which he later became known.[22]:16 Detroit disc jockeys largely ignored Infinite and the feedback Eminem did receive ("Why don't you go into rock and roll?") led him to craft angrier, moodier tracks.[10]At this time, Eminem and Kim Scott lived in a crime-ridden neighborhood where their house was robbed several times.[10] Eminem cooked and washed dishes for minimum wage at Gilbert's Lodge, a family-style restaurant in St. Clair Shores.[22]:14 His former boss described him as becoming a model employee, as he worked 60 hours a week for six months after the birth of his daughter, Hailie Jade Scott Mathers.[18]:4 He was fired shortly before Christmas and later said, "It was, like, five days before Christmas, which is Hailie's birthday. I had, like, forty dollars to get her something."[10] After the release of Infinite, his personal problems and substance abuse culminated in a suicide attempt.[21] By March 1997, he was fired from Gilbert's Lodge for the last time and lived in his mother's mobile home with Kim and Hailie.[18]:4Eminem and Proof performing at Juice Jam in Munich, Germany, in 1999Eminem attracted more attention when he developed Slim Shady, a sadistic, violent alter ego. The character allowed him to express his anger with lyrics about drugs, rape and murder.[18]:4 In the spring of 1997, he recorded his debut EP, the Slim Shady EP, which was released that winter by Web Entertainment.[10] The EP, with frequent references to drug use, sexual acts, mental instability and violence, also explored the more-serious themes of dealing with poverty and marital and family difficulties and revealed his direct, self-deprecating response to criticism.[21] Hip-hop magazine The Source featured Eminem in its "Unsigned Hype" column in March 1998.[22]:81After he was fired from his job and evicted from his home, Eminem went to Los Angeles to compete in the 1997 Rap Olympics, a nationwide battle rap competition. He placed second, losing to Project Blowed MC Otherwize.[33] An Interscope Records intern named Dean Geistlinger was in attendance and asked Eminem for a copy of the Slim Shady EP, which was then sent to company CEO Jimmy Iovine.[34] Iovine played the tape for record producer Dr. Dre, founder of Aftermath Entertainment and founding member of hip-hop group N.W.A. Dre recalled, "In my entire career in the music industry, I have never found anything from a demo tape or a CD. When Jimmy played this, I said, 'Find him. Now.'", expressing his shock towards Mathers's rapping talent. Although his associates criticized him for hiring a white rapper, Dre was confident in his decision: "I don't give a fuck if you're purple; if you can kick it, I'm working with you."[10] Eminem had idolized Dre since listening to N.W.A as a teenager and was nervous about working with him on an album.[22]:24 He became more comfortable working with Dre after a series of productive recording sessions.[35] On March 9, 1998, Eminem got signed to Aftermath and Interscope.[36]Eminem released The Slim Shady LP in February 1999. Although it was one of the year's most popular albums (certified triple platinum by the end of the year),[37] he was accused of imitating the style and subject matter of underground rapper Cage (who he references in the album's song "Role Model").[38][39] The album's popularity was accompanied by controversy over its lyrics; in "'97 Bonnie & Clyde", Eminem describes a trip with his infant daughter when he disposes of his wife's body and in "Guilty Conscience", he encourages a man to murder his wife and her lover. "Guilty Conscience" marked the beginning of a friendship and musical bond between Dr. Dre and Eminem. The label-mates later collaborated on a number of hit songs and Dre made at least one guest appearance on each of Eminem's Aftermath albums.[40] The Slim Shady LP has been certified quadruple platinum by the RIAA.[41]Eminem at the ARCO Arena for the Up in Smoke Tour in June 2000After Eminem released The Slim Shady LP, he started his own record label, Shady Records, in late 1999. Eminem looked for an avenue to release D12, and his manager Paul Rosenberg was keen to start a label, which led to the two teaming up to form Shady.[42] Its A&R Marc Labelle has defined the record label as "a boutique label but [with] all the outlets of a major [and] Interscope backing up our every move."[43]Recorded from 1999 to 2000,[44] The Marshall Mathers LP was released in May 2000. It sold 1.76million copies in its first week, breaking U.S. records held by Snoop Dogg's Doggystyle for fastest-selling hip-hop album and Britney Spears' ...Baby One More Time for fastest-selling solo album.[45][46] The first single from the album, "The Real Slim Shady", was a success despite controversies about Eminem's insults and dubious claims about celebrities.[22]:60 In his second single, "The Way I Am", he reveals the pressure from his record company to top "My Name Is". Although Eminem parodied shock rocker Marilyn Manson in the music video for "My Name Is", they are reportedly on good terms; Manson is mentioned in "The Way I Am", appeared in its music video and has performed a live remix of the song with Eminem.[47] The third single, "Stan", was ranked by Q as the third-greatest rap song ever,[48] and it was ranked tenth in a Top40-Charts.com survey.[49] The song has since been ranked 296th on Rolling Stone's "500 Greatest Songs of All Time" list.[50] In July 2000, Eminem was the first white artist to appear on the cover of The Source.[22]:81 The Marshall Mathers LP was certified Diamond by the RIAA in March 2011 and sold 21million copies worldwide.[51]In 2000, Eminem appeared in the Up in Smoke Tour[52] and the Family Values Tour,[22]:70 headlining the Anger Management Tour with Papa Roach, Ludacris, and Xzibit. Eminem performed with Elton John at the 43rd Grammy Awards ceremony in 2001.[53] GLAAD, an organization which considered Eminem's lyrics homophobic, condemned John's decision to perform with Eminem.[54] Entertainment Weekly placed the appearance on its end-of-decade "best-of" list: "It was the hug heard 'round the world. Eminem, under fire for homophobic lyrics, shared the stage with a gay icon for a performance of 'Stan' that would have been memorable in any context."[55] On February 21, the day of the awards ceremony, GLAAD held a protest outside the Staples Center (the ceremony's venue).[56] Eminem was also the only guest artist to appear on fellow rapper Jay-Z's critically acclaimed album The Blueprint, producing and rapping on the song "Renegade".[57]The Eminem Show was released in May 2002. It was another success, reaching number one on the charts and selling over 1.332million copies during its first full week.[37] The Eminem Show, certified Diamond by the RIAA, examines the effects of Eminem's rise to fame, his relationship with his wife and daughter and his status in the hip-hop community, addressing an assault charge brought by a bouncer he saw kissing his wife in 2000. Stephen Thomas Erlewine of AllMusic found The Eminem Show less inflammatory than The Marshall Mathers LP.[58] L. Brent Bozell III, who had criticized The Marshall Mathers LP for misogynistic lyrics, noted The Eminem Show's extensive use of obscenity and called Eminem "Eminef" for the prevalence of the word "motherfucker" on the album.[59] The Eminem Show sold 27million copies worldwide[51] and was the bestselling album of 2002.[60]Eminem on the Anger Management Tour in 2003In 2003, Eminem, a lifelong fan of Tupac,[61] provided production work for three tracks on the Tupac Resurrection soundtrack.[62] He would follow this up the next year by producing 12 of the 16 tracks on Tupac's Loyal to the Game album.[62] On December 8, 2003, the United States Secret Service said that it was "looking into" allegations that Eminem had threatened the President of the United States.[63] The cause for concern was the lyrics of "We As Americans" ("Fuck money / I don't rap for dead presidents / I'd rather see the president dead / It's never been said, but I set precedents"), which was later released on a bonus CD with the deluxe edition of Encore.[64]Encore, released in 2004, was another success, but not as successful as his previous albums. Its sales were partially driven by the first single, "Just Lose It", which contained slurs directed toward Michael Jackson. On October 12, 2004, a week after the release of "Just Lose It", Jackson phoned Steve Harvey's radio show, The Steve Harvey Morning Show, to report his displeasure with its video (which parodies Jackson's child molestation trial, plastic surgery and the 1984 incident when Jackson's hair caught fire during the filming of a commercial). Many of Jackson's friends and supporters spoke out against the video, including Stevie Wonder, who described it as "kicking a man while he's down" and "bullshit",[65] and Steve Harvey (who said, "Eminem has lost his ghetto pass. We want the pass back").[65] "Weird Al" Yankovic, who parodied the Eminem song "Lose Yourself" on "Couch Potato" for his 2003 album Poodle Hat, told the Chicago Sun-Times about Jackson's protest: "Last year, Eminem forced me to halt production on the video for my 'Lose Yourself' parody because he somehow thought that it would be harmful to his image or career. So the irony of this situation with Michael is not lost on me."[66] Although Black Entertainment Television stopped playing the video, MTV announced that it would continue to air it. The Source, through CEO Raymond "Benzino" Scott, called for the video to be pulled, the song removed from the album and Eminem to apologize publicly to Jackson.[67] In 2007, Jackson and Sony bought Famous Music from Viacom, giving him the rights to songs by Eminem, among other artists.[68]Despite its lead single's humorous theme, Encore explored serious subject matter with the anti-war song "Mosh", which criticized President George W. Bush.[69] On October 25, 2004, a week before the 2004 U.S. Presidential election, Eminem released the video for "Mosh" on the Internet.[70] In it, Eminem gathers an army of Bush-administration victims and leads them to the White House. When they break in, it is learned that they are there to register to vote; the video ends with "VOTE Tuesday November 2." After Bush's reelection, the video's ending was changed to Eminem and the protesters invading the White House during a speech by the president.[71] Also in 2004 Eminem launched a satellite music channel, Shade 45, on Sirius radio,[72] which was described by his manager as "essentially a destination to get and hear things that other people aren't playing."[73]Eminem began his first U.S. concert tour in three years in the summer of 2005 with the Anger Management 3 Tour, but in August, he canceled the European leg of the tour, later announcing that he had entered drug rehabilitation for treatment of a "dependency on sleep medication".[74] Meanwhile, industry insiders speculated that Eminem was considering retirement, while rumors circulated that a double album titled The Funeral would be released.[75] In July, the Detroit Free Press reported a possible final bow for Eminem as a solo performer, quoting members of his inner circle as saying that he would embrace the roles of producer and label executive.[76] A greatest hits album, Curtain Call: The Hits, was released on December 6, 2005, by Aftermath Entertainment,[77] and sold nearly 441,000 copies in the U.S. in its first week, marking Eminem's fourth consecutive number-one album on the Billboard Hot 200,[78] and was certified double platinum by the RIAA.[79] However, Eminem suggested that month on WKQI's "Mojo in the Morning" show that he would be taking a break as an artist: "I'm at a point in my life right now where I feel like I don't know where my career is going... This is the reason that we called it 'Curtain Call' because this could be the final thing. We don't know."[80]Proof's death in 2006 was one of the factors that caused Eminem to fall into depression during his five-year hiatus.[81]In April 2006, Proof, who was Eminem's childhood friend, was murdered.[82] Eight months later, on December 5, Eminem released a compilation album titled Eminem Presents: The Re-Up that featured Proof and other Shady Records artists.[83]In September 2007, Eminem called New York radio station WQHT during an interview with 50 Cent, saying that he was "in limbo" and "debating" about when (or if) he would release another album.[84] He appeared on his Shade 45 Sirius channel in September 2008, saying: "Right now I'm kinda just concentrating on my own stuff, for right now and just banging out tracks and producing a lot of stuff. You know, the more I keep producing the better it seems like I get 'cause I just start knowing stuff."[85] Interscope confirmed that a new album[86] would be released in spring 2009.[87]According to a March 5, 2009, press release, Eminem would release two new albums that year. Relapse, the first, was released on May 19; its first single and music video, "We Made You", had been released on April 7.[88] Although Relapse did not sell as well as Eminem's previous albums and received mixed reviews, it was a commercial success and re-established his presence in the hip-hop world. It sold more than fivemillion copies worldwide.[89] On October 30, he headlined at the Voodoo Experience in New Orleans, his first full performance of the year.[90] Eminem's act included several songs from Relapse, many of his older hits and an appearance by D12. On November 19, he announced on his website that Relapse: Refill would be released on December 21. The album was a re-release of Relapse with seven bonus tracks, including "Forever" and "Taking My Ball". Eminem described the CD:I want to deliver more material for the fans this year like I originally planned... Hopefully, these tracks on The Refill will tide the fans over until we put out Relapse 2 next year... I got back in with Dre and then a few more producers, including Just Blaze, and went in a completely different direction which made me start from scratch. The new tracks started to sound very different than the tracks I originally intended to be on Relapse 2, but I still want the other stuff to be heard.[91]Eminem performing with D12 in May 2009On April 14, 2010, Eminem tweeted: "There is no Relapse 2". Although his followers thought he was not releasing an album, he had changed its title to Recovery and confirmed this by tweeting "Recovery" with a link to his website. He said:I had originally planned for Relapse 2 to come out last year. But as I kept recording and working with new producers, the idea of a sequel to Relapse started to make less and less sense to me, and I wanted to make a completely new album. The music on Recovery came out very different from Relapse, and I think it deserves its own title.[92]Recorded from 2009 to 2010, Recovery was released on June 18.[92] In the U.S., Recovery sold 741,000 copies during its first week, topping the Billboard 200 chart.[93][94] Eminem's sixth consecutive U.S. number-one album also topped the charts in several other countries. Recovery remained atop the Billboard 200 chart for five consecutive weeks of a seven-week total.[95]Billboard reported that it was the bestselling album of 2010, making Eminem the first artist in Nielsen SoundScan history with two year-end bestselling albums.[96] Recovery is the bestselling digital album in history.[97] Its first single, "Not Afraid", was released on April 29 and debuted atop the Billboard Hot 100; its music video was released on June 4.[98] "Not Afraid" was followed by "Love the Way You Lie", which debuted at number two before rising to the top.[99] Although "Love the Way You Lie" was the bestselling 2010 single in the United Kingdom, it did not reach number one (the first time this has happened in the UK since 1969).[100] Despite criticism of its inconsistency, Recovery received positive reviews from most critics. As of November21, 2010[update], the album had U.S. sales of threemillion copies.[101] Recovery was the bestselling album worldwide in 2010, joining 2002's bestseller The Eminem Show to give Eminem two worldwide year-end number-one albums.[102] With Recovery, Eminem broke the record for the most successive U.S. number-one albums by a solo artist.[103]In June 2010, Eminem and Jay-Z announced they would perform together in Detroit and New York City, at concerts called The Home & Home Tour. The first two concerts quickly sold out, prompting an additional show in each city.[104] BET called Eminem the number-one rapper of the 21st century.[105] Due to the success of Recovery and the Home & Home Tour, Eminem was named the 2010 Hottest MC in the Game by MTV[106] and Emcee of the Year by the online magazine HipHopDX.[107] He and Rihanna again collaborated on "Love the Way You Lie (Part II)", the sequel of their hit single.[108] In December 2010, the "Great Eminem Recovery" was number one on Billboard's Top 25 Music Moments of 2010.[109] That month it was announced that "Space Bound" would be the fourth single from Recovery, with a music video featuring former porn actress Sasha Grey;[110][111] the video was released June 24 on the iTunes Store.[112]Eminem performing at Lollapalooza 2011In 2010, Eminem again began collaborating with Royce da 5'9" on their first EP as Bad Meets Evil; the duo formed in 1998. The album was released on November 5, by Aftermath Entertainment, Shady Records and Interscope Records. Its standard version had 16 tracks and the deluxe version included a second disc with five additional tracks. Coulter responded to the lyrics, stating, "I think it's unfortunate that the left, from Berkeley to Eminem with his rap songs, has normalized violence against women, as Eminem has done."[155] Eminem participated in the 2017 BET Hip Hop Awards' annual cypher, using his verse, a freestyle rap called "The Storm",[156] to further criticize Trump and the administration[157] for, among other things, Trump's focus on National Football League players' protests during "The Star Spangled Banner" over Hurricane Maria recovery efforts[158] and lack of gun control reform in the wake of the 2017 Las Vegas shooting.[157] Eminem ended the cypher by giving an ultimatum saying that Trump supporters cannot be his fans.[158] The verse received wide praise among other rappers following its release.[159] It was reported that the Secret Service interviewed Eminem in 20182019, regarding threatening lyrics towards President Trump and daughter Ivanka.[160]Starting in late October 2017, Eminem and Paul Rosenberg began teasing what fans speculated was the title of a new album titled Revival, in the form of advertisements for a fake medication of the same name.[161] Later in November, the first single "Walk on Water" was released, which featured Beyonc.[162] The song was first performed, by Eminem, at the 2017 MTV Europe Music Awards on November 12, featuring Skylar Grey.[163] On November 28, Dr. Dre posted a video confirming the album's release date as December 15, 2017.[164] Despite an online leak of the album two days prior,[165] Revival was released as planned on December 15. In 2004, Eminem was co-executive producer of 2Pac's posthumous album Loyal to the Game with Shakur's mother, Afeni.[236]Eminem is considered unusual in structuring his songs around the lyrics, rather than writing to beats.[43] One exception was "Stan", which came from an idea and scratch track produced by the 45 King.[43] After doing little production on Relapse and Recovery, Eminem produced a significant portion of The Marshall Mathers LP 2. He said about producing his own music, "Sometimes, I may get something in my head, like an idea or the mood of something that I would want, and I'm not always gonna get that by going through different tracks that other people have made. They don't know what's in my head. I think maybe it helps, a little bit, with diversity, the sound of it, but also, I would get something in my head and want to be able to lay down that idea from scratch."[237] In 1998 when his beef with rapper Cage was still happening, New York rapper Necro (who had previously produced three songs for Cage) met Eminem and gave him a CD with the beat to what eventually became the beat for the song "Black Helicopters" by rap group Non-Phixion. Despite Eminem never using it, Necro still said positive things about Eminem and would appear on Shade45 years later.[238]Main article: Public image of EminemIn 2002, the BBC said that the perception of Eminem as a "modern-day William Shakespeare" was comparable to the reception of American singer Bob Dylan: "Not since Bob Dylan's heyday in the mid-1960s has an artist's output been subjected to such intense academic scrutiny as an exercise in contemporary soul-searching. U.S. critics point to [Eminem's] vivid portraits of disenfranchised livesusing the stark, direct language of the streetas an accurate reflection of social injustice." In addition, the BBC highlighted that, "Where parents once recoiled in horror [to his music], there now seems a greater willingness to acknowledge a music that is striking such a chord among the American young, angry white underclass."[239]Eminem uses alter egos in his songs for different rapping styles and subject matter, including Slim Shady and Ken Kaniff, among others. Throughout his career, he has had highly publicized lyrical feuds with many recording artists.[240]Some of Eminem's lyrics have been criticized for being homophobic, and an Australian politician attempted to ban him from the country.[241] Eminem denies the charge, saying that when he was growing up words such as "faggot" and "queer" were used generally in a derogatory manner and not specifically toward homosexuals. Eminem is a friend of openly gay singer Elton John,[242] and publicly supports gay rights.[243]Eminem is one of the best-selling artists in music history, easily the biggest crossover success ever seen in rap. To call him hip-hop's Elvis is correct to a degree, but it's largely inaccurate. Certainly, he was the first white rapper since the Beastie Boys to garner both sales and critical respect, but his impact has exceeded this confining distinction. Stephen Thomas Erlewine[244]Credited for popularizing hip-hop to a Middle American audience, Eminem's unprecedented global commercial success and acclaimed works for a white rapper is widely recognized for breaking racial barriers for the acceptance of white rappers in popular music.[245] Rising from rags to riches, Eminem's anger-fueled music represented widespread angst and the reality of American underclass.[246]Stephen Hill, the then vice president of African American-themed television network BET (Black Entertainment Television), said in 2002:Eminem gets a pass in the same vein that back during segregation black folks had to be better than average, had to be the best, to be accepted... he is better than the best. In his own way, he is the best lyricist, alliterator and enunciator out there in hip-hop music. In terms of rapping about the pain that other disenfranchised people feel, there is no one better at their game than Eminem.[247]Writing for Spin in 2002, rock critic Alan Light compared Eminem to the Beatles' John Lennon:Eminem is even starting to bear a resemblance to one of those rock icons... Marshall Mathers is becoming something like this generation's John Lennon... Lennon and Eminem were both subjects of pickets and protests; they both wrote songs about troubled relationships with their mothers; they both wrote about their strange public lives with their wives; they both wrote about how much they loved their kids. Lennon, of course, was able to find ways to use his voice to advocate for peace rather than just blasting away at litigious family members and various pop stars, but still, few other pop musicians since Lennon have found a way to render their private psychodramas into compelling art as effectively as Eminem.[248]Regarding his rehearsal with Eminem for the "Stan" duet at the 2001 Grammy Awards, English singer Elton John said, "[When] Eminem made his entrance, I got goose bumps, the likes of which I have not felt since I first saw Jimi Hendrix, Mick Jagger, James Brown and Aretha Franklin. Eminem was that good. I just thought, 'Fuck, this man is amazing'. There are very few performers who can grab you like that the first timeonly the greats."[249] John further praised Eminem, saying, "Eminem is a true poet of his time, someone we'll be talking about for decades to come. He tells stories in such a powerful and distinctive way. As a lyricist, he's one of the best ever. Eminem does for his audience what [Bob] Dylan did for his: He writes how he feels. His anger, vulnerability and humor come out."[249] Bob Dylan praised Eminem in a 2022 interview with The Wall Street Journal.[250][251][252]Eminem graffiti in Shanghai, ChinaEminem has been credited with boosting the careers of hip-hop proteges such as 50 Cent, Yelawolf, Stat Quo, Royce da 5'9", Cashis, Obie Trice, Bobby Creekwater, Boogie and hip-hop groups such as D12 and Slaughterhouse. In 2005 Eminem signed another Atlanta rapper, Bobby Creekwater and West Coast rapper Cashis to Shady Records.[26]On December 5, 2006, the compilation album Eminem Presents: The Re-Up was released on Shady Records. The project began as a mixtape, but when Eminem found the material better than expected he released it as an album. The Re-Up was intended to introduce Stat Quo, Cashis and Bobby Creekwater.[314] While he was recording Infinite, Eminem, Proof and Kon Artis assembled a group of fellow rappers now known as D12, short for "Detroit Twelve" or "Dirty Dozen", who performed in a style similar to Wu-Tang Clan.[22]:19 In 2001 D12's debut album, Devil's Night, was released.[315] After their debut, D12 took a three-year break from the studio. They reunited in 2004 for their second album, D12 World, which included the hit singles "My Band" and "How Come"[315] According to D12 member Bizarre, Eminem was not featured on his album Blue Cheese & Coney Island because "he's busy doing his thing".[316]Main article: Shade 45Eminem established his own satellite radio channel, Shade 45, that plays uncut hip-hop.[317] Eminem also established a new morning show, Sway in the Morning with Sway Calloway, a lively morning show that airs at 8:00a.m., MondayFriday.[318][319]Eminem promoted the station in a 2004 mock national convention (the "Shady National Convention") at the Roseland Ballroom in New York City,[320] in which Donald Trump endorsed him.[321] On his album Revival (2017), Eminem expressed his regret at having collaborated with Trump, rapping, "wish I would have spit on it before I went to shake his hand at the event".[322]Main article: Mom's SpaghettiOn September 29, 2021, Eminem and Union Joints opened a spaghetti restaurant at 2131 Woodward Ave in Detroit. It is a reference to the lyrics "His palms are sweaty, knees weak, arms are heavy / There's vomit on his sweater already, mom's spaghetti" from the song "Lose Yourself" which became an internet meme.[323][324] Mom's Spaghetti was previously a pop-up in Detroit in 2017 and at Coachella in 2018.[325][326] In 2023, Eminem announced the launch of a "Mom's Spaghetti" jarred pasta sauce.[327]After small roles in the 2001 film The Wash and as an extra in the 1998 Korn music video for "Got the Life" (during which he gave the band a demo tape), Eminem made his Hollywood debut in the semi-autobiographical 2002 film 8 Mile. He said it was a representation of growing up in Detroit rather than an account of his life. He recorded several new songs for the soundtrack, including "Lose Yourself" (which won an Academy Award for Best Original Song in 2003 and became the longest-running No. 1 hip-hop single in history).[328] Eminem was absent from the ceremony and co-composer Luis Resto accepted the award.[329]Eminem voiced an aging, corrupt, AAVE-speaking police officer in the video game 50 Cent: Bulletproof and guested on the Comedy Central television show Crank Yankers and a Web cartoon, The Slim Shady Show.[330] He was signed to star in an unmade film version of Have Gun Will Travel,[331] and was considered for the role of David Rice in the 2008 film Jumper.[332] Eminem had a cameo appearance in the 2009 film Funny People. In a 2010 interview with Jonathan Ross, he stated "You know, I love music so much. This is my passion, this is what I want to do. Not saying that I won't do a movie ever again, but this is me."[333]He played himself in the Entourage season-seven finale "Lose Yourself".[334] Although Eminem was offered the lead role in the 2013 science-fiction film Elysium, he turned it down because director Neill Blomkamp would not change its location from Los Angeles to Detroit.[335] Eminem had a cameo appearance as himself in the 2014 film The Interview.[336]Eminem established the Marshall Mathers Foundation to aid disadvantaged youth. The foundation works in conjunction with a charity founded by Norman Yatooma, a Detroit attorney.[337] During the COVID-19 pandemic in 2020, Eminem donated a pair of Air Jordan 4 Retro Eminem Carhartt shoes, which are rare, to be raffled off with proceeds going to COVID-19 relief.[338] That same year, he donated spaghetti meals, to healthcare workers at Henry Ford Health System in Detroit, referencing the line "mom's spaghetti" from his song "Lose Yourself".[339]Eminem appeared in two commercials which were shown during Super Bowl XLV. In the first, a one-minute spot for Lipton's Brisk iced tea, he is a claymation figure.[340] In the second, a two-minute adthe longest in Super Bowl history at the timefor the Chrysler 200, Eminem drives through Detroit (with "Lose Yourself" as the soundtrack) to his show at the Fox Theatre.[341][342]On November 21, 2000, Eminem published Angry Blonde, a non-fiction book featuring a commentary of several of his own songs, along with several previously unpublished photographs.On October 21, 2008, his autobiography The Way I Am was published by Dutton Adult.[343] The book is illustrated with never before published photos of Eminem's life. The autobiography is named after his 2000 song "The Way I Am". An autobiography of Eminem's mother, My Son Marshall, My Son Eminem, was published the following month.Eminem was married twice to Kimberly Anne Scott, whom he met in high school.[344] Scott and her twin sister had run away from home; they moved in with Eminem and his mother when he was 15 and he began an on-and-off relationship with Scott on January 14, 1991.[345] Their daughter Hailie Jade, who is Mathers's only biological child, was born on December 25, 1995.[346]Mathers and Scott were married on June 14, 1999, and divorced on October 5, 2001.[347] Despite Eminem's 2002 declaration that "I would rather have a baby through my penis than get married again", he and Scott briefly remarried on January 14, 2006. He filed for divorce almost three months later on April 5,[348] agreeing to joint custody of Hailie, with the divorce being finalized on December 19, 2006.[349] In early 2010, Eminem denied tabloid reports that he and Scott had renewed their romantic relationship. However, in the same statement, his representative also confirmed that they were still friendly with each other.[350]Their daughter, Hailie Jade, is an influencer, specifically for fashion and beauty.[351][352] He legally adopted and was given custody of his former sister-in-law's daughter Alaina Marie,[346][353] as well as Scott's child from an affair, Stevie Laine.[346][354][355] He also raised his younger half-brother Nathan.[356]Eminem and actress Brittany Murphy (with whom he co-starred in 8 Mile) dated in the 2000s.[357][358] He stated in 2002 that he had been dating singer Mariah Carey, though she later denied it.[359]In his 2013 song "Headlights", Eminem reiterated his love for his mother and apologized to her for some of the lyrics from his songs, with the song "Cleanin' Out My Closet" being mentioned.[360] His mother would also publicly pay tribute to him when he was inducted into the Rock and Roll Hall of Fame in November 2022, although after Nelson's death due to complications from lung cancer in December 2024,[361] parts of her message were removed from some of Eminem's social media pages.[362][363]Hailie Jade married Evan McClintock in May 2024.[364] She gave birth to Eminem's first grandchild, Elliot Marshall McClintock, on March 14, 2025.[365][366]Eminem has spoken publicly about his addiction to prescription drugs, including Vicodin, Ambien, and Valium.[367] According to friend and fellow D12 member Proof, Eminem, who previously hinted in his 1999 single "My Name Is" that he avoided the use of drugs after experiencing his mother's history of drug abuse,[368] first developed a drug addiction in 2002.[369] During the production of 8 Mile, Eminem, working 16 hours a day, developed insomnia. An associate gave him an Ambien tablet which "knocked [him] out", encouraging him to obtain a prescription. This was Eminem's first experience of drug addiction, which would affect him for several years. Near the end of production on Encore, he would "just go into the studio and goof off [with] a pocketful of pills". Eminem began taking the drugs to "feel normal", taking a "ridiculous amount... I could consume anywhere from 40 to 60 Valium [in a day]. Vicodin, maybe 30." The drugs would put him to sleep for no more than two hours, after which he would take more. Eminem's weight increased to 230 pounds (100kg) and he was regularly eating fast food: "The kids behind the counter knew meit wouldn't even faze them. Or I'd sit up at Denny's or Big Boy and just eat by myself. It was sad." Eminem became less recognizable due to his weight gain and once overheard two teenagers arguing about whether or not it was him: "Eminem ain't fat."[25]Over the holidays, Marshall Mathers, a.k.a. Eminem, was under doctors' care at Detroit-area hospitals for complications due to pneumonia. He has since been released and is doing well recovering at home.Interscope Records statement in January 2008 regarding Eminem's hospitalisation the month prior[370]In December 2007, Eminem was hospitalized after a methadone overdose. He had first bought from a dealer who had told him it was "just like Vicodin, and easier on [your] liver". He continued to buy more until he collapsed in his bathroom one night and was rushed to the hospital. Doctors there told him he had ingested the equivalent of four bags of heroin and was "about two hours from dying". After missing Christmas with his children, Hailie, Alaina and Stevie, Eminem checked himself out of the facility, weak and not fully detoxed. He tore the meniscus in his knee after falling asleep on his sofa, requiring surgery; after he returned home, he had a seizure. His drug use "ramped right back to where it was before" within a month. Eminem began to attend church meetings to get clean, but after he was asked for autographs he sought help from a rehabilitation counselor. He began an exercise program that emphasized running. Elton John was a mentor during this period, calling Eminem once a week to check on him.[25] Eminem has been sober since April 20, 2008.[371]In April 2020, Matthew David Hughes, a 26-year-old man, broke into Eminem's house in Clinton Township, Macomb County, Michigan, breaking a kitchen window with a brick paver. Eminem woke up with Hughes standing behind him and Hughes said that he was there to kill Eminem.[372][373][374] Hughes was charged with multiple offences; his defense attorney opined that he seemed to be suffering from "mental issues".[372][373] In a plea agreement in 2021, Hughes pleaded guilty to second-degree home invasion in exchange for dismissal of other charges; he was sentenced to probation and time served (524 days in the county jail).[374] In 2019, Hughes had pleaded guilty to breaking into a Rochester Hills home in search of Eminem.[374][375] On August 30, 2023, it was revealed that the perpetrator of the 2023 Jacksonville shooting Ryan Palmeter in his manifesto, denounced Eminem and Machine Gun Kelly for their involvement in rap, prior to committing a racially-motivated shooting.[376]During the late 1990s and early 2000s, Eminem attacked politicians of both the Democratic and Republican parties, including then President and First Lady Bill and Hillary Clinton, and Second Ladies Tipper Gore and Lynne Cheney, the latter two being activists against violent lyrics in music.[377][378] In the song "Mosh", which was a few weeks before the 2004 United States presidential election, Eminem heavily criticized then-president George W. Bush but did not endorse John Kerry either.[379] While openly endorsing Barack Obama in a 2009 interview,[378] Eminem would not express political views in music again until the 2016 United States presidential election when he released "Campaign Speech", which criticized presidential candidate Donald Trump.[380] The following year, Eminem criticized Trump in a freestyle titled "The Storm". In the freestyle, Eminem expressed support for former San Francisco 49ers quarterback Colin Kaepernick and the U.S. national anthem protests, and expressed his displeasure for any of his fans that support Trump.[381] His 2020 song "Darkness" heavily references the 2017 Las Vegas mass shooting, and at the end of the music video he expresses support for gun control.[382]The week before the 2020 presidential election, Eminem approved his song "Lose Yourself" to be used in a campaign video for Joe Biden.[383][384] After the United States Supreme Court overturned Roe v. Wade, Eminem posted a tweet to his Twitter expressing his displeasure for the decision saying "As a father it pisses me off that women have fewer rights 2day than just a few days ago we r fuckin goin bckwards. Here's how 2 help in Michigan. [sic]" and included a link to a pro-choice organization in Michigan.[385] In 2023, he requested that Republican election candidate Vivek Ramaswamy stop rapping his song "Lose Yourself" at campaign rallies, sending Ramaswamy a cease and desist letter.[386]Eminem endorsed Kamala Harris during the 2024 United States presidential election. In October, he spoke at a Huntington Place rally supporting her, where he discussed the importance of voting in a swing state like Michigan and his belief that Harris "supports a future for this country" in which freedom of expression is protected.[387]Eminem is a Christian, and has rapped about his faith in a few songs.[388][389][390]Main articles: List of awards and nominations received by Eminem and List of Eminem records and achievementsWith global sales of over 220million records, Eminem is one of the best-selling music artists ever.[391] He has had thirteen number-one albums on the Billboard 200: nine solo, two with D12 and one with Bad Meets Evil.[392] He was the bestselling music artist from 2000 to 2009 in the U.S. according to Nielsen SoundScan.[393] He was also the bestselling male music artist in the United States of the 2010s.[394] He has sold 47.4million albums in the country[395] and 107.5million singles in the US.[396] The Marshall Mathers LP, The Eminem Show, Curtain Call: The Hits, "Lose Yourself", "Love the Way You Lie" and "Not Afraid" have all been certified Diamond or higher by the Recording Industry Association of America (RIAA).[8][397] Eminem has over tenbillion views of his music videos on his YouTube Vevo page,[398] and in 2014 Spotify named him the most-streamed music artist ever.Among Eminem's awards is 15 Grammy Awards,[138] eight American Music Awards and 17 Billboard Music Awards, Billboard named him the "Artist of the Decade (20002009)".[399] In 2013, he received the Global Icon Award at that year's MTV Europe Music Awards ceremony.[400] His success in 8 Mile saw him win the 2002 Academy Award for Best Original Song for his song "Lose Yourself", co-written with Jeff Bass and Luis Resto, making him the first rapper to receive the award.[401] He also won the MTV Movie & TV Awards for Best Actor in a Movie and Best Breakthrough Performance[402] and the Critics' Choice Movie Award for Best Song for "Lose Yourself".[403]Eminem has also been included and ranked in several publications' lists. It was Large Professor who gave Charles his 88-Keys moniker after witnessing his skills on the Ensoniq ASR-10 keyboard.[4]Upon considering a serious career in music, 88-Keys's parents and older brother began trying to point him into the field of medicine because it was a more "professional field" and the music industry did not seem like a lucrative move.[5] After briefly attending Hofstra University and Queens College, 88-Keys dropped out to pursue his dreams of being a record producer. His decision was fueled by an opportunity to record some tracks with The Pharcyde who were recording in California.[6]In addition to his passion for music, 88-Keys has expressed his love for fashion, most notably Ralph Lauren. In a 2008 interview with Metro, 88-Keys revealed that he had worn Polo Ralph Lauren every day for 16 years.I try to stay true to Ralph's vision. I don't want to bastardize his vision no offense to the urban community because we all know what happened to Tommy Hilfiger once the hip hop community embraced it. I'll walk out of the door dressed in loafers when everyone else is wearing Timberland boots. I definitely stand out. I'll tag along with Kanye on shopping trips and look at clothing by designers whose names I'd need to take French lessons to pronounce. He'll ask me what I think and I'll be like, whatever. I've turned down paying gigs because they've tried to dress me in clothing by other designers. Besides record shopping, the only other place I need is a Polo store. I'll go to Paris and they ll be like, 'here's the Eiffel Tower' and I'm like, 'whatever, where's the record store and the Polo store.[7]According to the article, 88-Keys began wearing Polo Ralph Lauren as a Long Island high school student in 1992, when he developed a liking for its classic, preppy style. He asserted that he had worn a complete look from the brand every day, without fail. As of 2008, his wardrobe included over 700 Polo pieces.[7]Since his days as an assistant engineer, 88-Keys has produced records for numerous artists including Mos Def, Talib Kweli, Kid Cudi, Macy Gray, Musiq Soulchild, Dejuan Lucian, and Consequence. Recently, 88-Keys extended beyond his production credits to highlight his skills on the mic as MC, singer and collaborator, most notably on his solo debut album The Death of Adam released on November 11, 2008. Executively produced by 88-Keys's close friend Kanye West,[8] the concept album tells the story of a man named Adam who has been murdered in a loft apartment in Harlem.[9] In August 2008 a fifteen-track mixtape titled Adam's Case Files was released as a prequel to The Death of Adam. The album's first single titled "Stay Up! (Viagra)" was officially released through iTunes on September 9, 2008. In December 2008, 88-Keys was highlighted as Spin Artist of the Day.[10] In 2009, 88-Keys worked in Atlanta with new female duo Addictive on a track for a forthcoming album.In June 2019, 88-Keys announced that a song he produced titled "That's Life", featuring Sia and Mac Miller, had been approved for release by Miller's estate, and was released through Warner Records on June 20, 2019.[11][non-primary source needed]Main article: 88-Keys production discographyAdam's Case Files Mixtape (2008)Stay Up!
