The instructions are specific to the latest versions, but will be similar for earlier versions. Registration information for one major version will also register a minor upgrade (or vice versa), but it will not register another major version. For example, a registration code provided for WinZip 76.0 will also work with WinZip 76.1 and newer WinZip versions. However, a registration code for WinZip 25 will NOT work with WinZip 26 or WinZip 27. When entering registration information, we recommend that you copy the code provided and paste it into the appropriate box. For example, if you have entered your name and code correctly, but you see a message saying incomplete or incorrect information, open the appropriate applet in the Control Panel for uninstalling programs and check to see which version of WinZip is installed. If you find a different major version is installed, download and install the correct WinZip version. You should click the Aktivat now button to register the software. You have successfully activated your Winzip System Utilities Suite kopie and unlocked all its premium features! You should be able to repair, optimize, and maintain your PC in no time. Ples hit your browser's bak button and try agen.
