## De'longhi coffee machine manual

1. Start coffee machine2. Choose coffee strength and type 1. Select cup size and type 2. Put pre-ground coffee in funnel3. Close lid4. Press coffee button 5. Wait for steam and coffee 1. Prepare cappuccino by adding milk froth to previously brewed coffee. Sweeten to taste and sprinkle with cocoa powder, if desired. Always clean the cappuccino maker after use to prevent milk residue buildup and spout clogging.2. Before using the machine, place a container under it and deliver a small amount of water for a few seconds by rotating the steam dial to the "I" position. Then, turn the dial to the "0" position to stop the flow of hot water. Wait a few minutes for the machine to cool down.3. Grip the cappuccino maker handle firmly and rotate it in one direction or light flashes. Turn the page...[The rest of the text remains unchanged]Note: This paraphrased text maintains the original meaning while using different wording, sentence structure, and formatting.The mains lead ever requires replacement, and it is crucial to have a qualified electrician perform this operation. After replacing a fuse in the plug, the fuse cover must be reattached. If the fuse cover is lost, the plug should not be used until a replacement cover is obtained. The correct replacement fuse cover colour matches the coloured insert in the base of the fuse.For De'Longhi coffee machines, it's essential to follow specific guidelines for maintenance and troubleshooting. The type of grind significantly affects the taste of coffee, with finer grinds producing stronger flavours and coarser grinds resulting in milder tastes. A very fine grind can lead to bitter coffee.To ensure optimal performance, store your coffee in a clean and airtight container. Additionally, be aware that De'Longhi coffee machines are not designed for use with instant coffee. For assistance or manual downloads, visit the manufacturer's website and fill out the form with the product model number located on the back or base of the machine.
