

I'm not a robot

Space Pirate Captain Harlock is a fictional character created by manga artist Leiji Matsumoto. He is a space pirate with an individualist philosophy of life, who fights against totalitarian regimes. In his own words, he "fights for no one's sake... only for something deep in [his] heart". Space Pirate Captain Harlock: The Endless Odyssey Released in 2002 ===== The year 2002 marked the release of Space Pirate Captain Harlock: The Endless Odyssey,[1] directed by Rintaro. This television series takes place after the original TV series and follows Harlock, who is on a self-imposed exile, as he returns to gather his crew for a fight against the Noo, an ancient evil that has caused the Earth to disappear. The Return of Captain Harlock Harlock's journey begins with him reuniting with his old friend Emeraldals, who is now working under the pirate ship Arcadia. However, their reunion is short-lived as they soon find themselves embroiled in a battle against the Noo, an evil force that uses fear to conquer its enemies. A New Take on the Classic Franchise White Space Pirate Captain Harlock: The Endless Odyssey is largely a sequel to the original series, it also reintroduces Tadashi Daiba, who was last seen in Arcadia of My Youth. This new take on the franchise offers fans a fresh perspective on the beloved characters and storylines. Harlock's Backstory It's worth noting that Captain Harlock's backstory has undergone significant changes over the years. In some versions, he is portrayed as a military officer before becoming a space pirate, and in others, his past is shrouded in mystery. However, according to Leiji Matsumoto, the creator of the series, this is the version of Harlock that he considers to be part of continuity. Supporting Characters The series features a range of supporting characters, including Tochiro Oyama, Harlock's old friend and the architect of the Arcadia. Queen Emeraldals, another space pirate, also plays a key role in the story. Additionally, there is Miime, an alien female harpist who serves as Harlock's adviser and moral support. Conclusion Space Pirate Captain Harlock: The Endless Odyssey offers fans a thrilling adventure that explores the depths of human emotion and the power of friendship. With its richly detailed world-building and engaging characters, this series is sure to delight both old and new fans of the franchise. Captain Harlock has made a significant impact on popular culture, with notable appearances in various forms of media. The character's popularity can be seen in several adaptations and references to him. ===== Mitsuru Kiruda, the leader of Earth's defense forces, is a complex character driven by a desire for justice after his family was killed by the government. His journey to eliminate Harlock is rooted in his personal tragedy and a sense of responsibility. Harlock himself was affected by his father's murder at the hands of the Mazon, leading him to join the Arcadia crew and seek revenge against those responsible. The character's influence can be seen in other works, such as Osamu Tezuka's Black Jack and Naoko Takeuchi's Tuxedo Mask. The stoic qualities that define Harlock have also inspired characters like Alex Row from Last Exile. Harlock has been featured in various comic book series, including an American adaptation by Eternity Comics. However, the rights to use the character were allegedly mismanaged, leading to the discontinuation of the comics. A live-action film is currently in production, but its legitimacy is uncertain due to the involvement of a fraudulent representative who claimed to hold the rights to Harlock. Captain Harlock has also made appearances in other works by Leiji Matsumoto, including Galaxy Express 999 and Queen Emeraldals. The character's versatility has allowed him to be featured in various storylines, from space battles to detective mysteries. Captain Harlock, named after Captain Harlock and Robert E. Howard's Solomon Kane, is a voice talent management firm in Japan founded on February 3rd, 1981, making the year the company's namesake. The hybrid CD-ROM featuring voice talent data for members of 81 Produce was released on October 19th, 1997. The company is located in Shibuya, Tokyo. Notable affiliated voice actors include Leiji Matsumoto's quintessential works, Captain Harlock depicts a crew of renegades in search of freedom in the sea of stars. This relatively short story, when compared to long-running Shonen manga series, follows a diverse cast of characters as they navigate through various challenges and adventures. The series is known for its unique blend of science fiction, action, and drama elements, which have captivated audiences worldwide. With its complex characters, intricate plotlines, and memorable artwork, Captain Harlock has become a beloved franchise among fans of anime and manga.The archetypal space pirate Captain Harlock is the main character of a manga series created by Leiji Matsumoto in 1977. He fight for somethin deep in his heart, not for nobody's sake, but for his own noble philosophy of life. Harlock rebel against totalitarian regimes, which dont matter if they be born on Earth or from outer space. The first anime series based on Harlock was release in 1978. It was direct by Rintaro and produce by Toei Animation. Later, a movie called Arcadia of My Youth show the origin of Harlock, which some consider to be the center of the "Leijiverse". Another anime OVA was made for Madhouse. In the future, in 2977 AD, humanity have become a big star-faring civilisation, but slowly start to forget what it mean to be alive. Harlock and his crew take daring raids against Earth's oppressors, which are mainly the Mazon, an alien women who explore Earth long time ago. The Dragon Ball serie is confusing, but there is somethin special about this franchise. The Soul-like game is getting too many, and nobody bring somethin new to the table.
