

I'm not a bot

Tarot là một nghệ thuật tâm linh để sử dụng nhưng toàn diện, giúp mọi người biết cách bắt đầu đọc lá bài và lựa chọn các bố trí thẻ, sau đó cung cấp một đánh giá chi tiết về từng lá bài trong bộ major và minor arcana. Khám phá các sự thật, câu chuyện, lịch sử và bí mật về nghệ thuật tarot reading. Dù muốn học cách đọc lá bài hay sâu sắc hóa kỹ năng giải thích tarot của mình, Ultimate Guide to Tarot tôn vinh dòng di truyền phong phú của tarot, đồng thời hướng dẫn bạn thông qua các kỹ thuật thực tế. Tarot chuyên gia Liz Dean cung cấp một cái nhìn tổng quan về các yếu tố quan trọng của từng lá bài, từ việc diễn giải các biểu tượng đến mối liên hệ với chiêm tinh học, kabbala và thần số học. Ultimate Guide to Tarot cũng bao gồm tất cả các trải bài tarot cổ điển như tháp tự Celtic, trải bài móng ngựa, trải bài ngôi sao,... và một mini-bộ trí dành riêng cho từng lá bài trong bộ 22 lá chính. Để tạo ra sự thật sự kỳ diệu của tarot, bạn cần kết hợp ba thành phần thiết yếu: hiểu ý nghĩa của các lá bài, cách sắp xếp chúng và tin tưởng vào những thông điệp trực quan thường khơi dậy trong chúng ta khi đọc. Cuốn sách này mang lại sự tự tin và chuyên môn cao. Ultimate Guide to Tarot trở thành người bạn đồng hành không thể thiếu đối với những độc giả mới cũng như những người đam mê tarot. Ultimate Guide to Tarot là phần thưởng cần thiết cho bất cứ ai muốn học cách đọc tarot hoặc sâu sắc hóa kỹ năng giải thích của mình. Cuốn sách này được thiết kế để mang đến thông tin dễ tiếp cận và trực quan, giúp bạn bắt đầu ngay lập tức. I strongly believe that this comprehensive guide will benefit tarot card readers of all experience levels, from novices to experts. The author's approach is clear, concise, and easy to understand, making it an ideal resource for those looking to improve their skills. I've had the opportunity to read the Kindle edition, and now I'm considering purchasing the printed version as well, as I'd like to have a tangible reference guide to aid in my learning. Tarot Guide is a Comprehensive Resource for Beginners and Experienced Readers Alike ===== This tarot guide offers a wealth of information on how to work with cards and their reflections throughout the deck. The author provides appendices of crystals, chakra associations, and Tree of Life pathways, making it an invaluable resource for those looking to develop their own reading style. The book includes unique spreads for each major arcana card, allowing readers to gain a deeper understanding of its influence within a reading. While the guide is geared towards beginners, experienced readers will also find value in its depth and clarity. One potential drawback is that the book's scope may be overwhelming for some readers. However, this can be easily supplemented with outside resources and study. The author's expertise shines through in her writing, making this a worthwhile investment for anyone interested in tarot reading. The guide's use of the Rider-Waite Smith deck is notable, and its focus on symbolism and imagery will appeal to those familiar with this style. While some may find the book's brief references to numerology, astrology, and kabbalah lacking in depth, this can be seen as an opportunity for further exploration. Overall, this tarot guide is a must-have resource for anyone looking to deepen their understanding of the cards and their meanings.Paraphrased text here ===== I was excited to dive into this tarot book, and I'm glad the author lets you use the tarot in your own way, which I found really helpful. Unfortunately, my journey with Tarot came to an abrupt end after reading a few sections that left me feeling misled. January 30, 2023DNF at 7%.I recently started exploring Tarot, and this book seemed like the perfect resource. However, things took a turn for the worse when I stumbled upon the section on Kabbalah, a Jewish mysticism that is not exactly open to new interpretations. What caught my attention was how the author's understanding of this topic fell short. When it comes to something you're not familiar with, it seems only logical to stick to what you know and avoid spreading misinformation. This became a major point of contention for me, as I couldn't help but question other areas where she may have strayed from accurate information. I'm willing to learn from reliable sources in the future. August 27, 2020This book has been my go-to Tarot companion since its publication. I use it frequently and always find new insights into my readings. Comparing it to other tarot books, none of them compare to this one's depth and detail. I would highly recommend this book to anyone looking for a solid foundation in tarot. December 31, 2020I found this book to be extremely detailed, covering various aspects of reading Tarot, card meanings, and even some spreads. Although it didn't provide many pre-made spreads, the information was valuable nonetheless. December 26, 2019The book is centered around the Rider-Waite-Smith Tarot deck and offers in-depth explanations for each card. While I may not be planning to use this specific deck exclusively, I still found the descriptions of the cards themselves to be informative and helpful. What stood out was how Ms. Dean approached interpreting the Major Arcana cards with various spreads. Although the Minor Arcana didn't receive a similar treatment, it's understandable why she wouldn't create spreads for every single card. One aspect that caught my attention was her exploration of Numerology and other esoteric systems in relation to Tarot. While I may not be able to utilize all this knowledge right now, knowing its existence is reassuring. The book concludes with an appendix detailing these subjects, which I plan on re-examining as I delve deeper into the world of Tarot. Overall, I greatly enjoyed reading Ms. Dean's book and appreciate its value as a starting point for beginners or those seeking clarification on certain readings. It's worth noting that using the Universal Waite Tarot deck can significantly enhance your understanding of the cards.The Ultimate Guide to Tarot: A Disappointing Resource for Deepening Your Connection with the Cards ===== While The Ultimate Guide to Tarot attempts to position itself as a comprehensive resource, it ultimately falls short of its promise. Instead of offering in-depth explanations and nuanced interpretations, the book relies on generic definitions and simplistic descriptions that fail to scratch beyond the surface. The formulaic approach used in the book is another major flaw. Each card is presented with a cookie-cutter format that lacks any real depth or context. This might be useful for those completely unfamiliar with Tarot, but for anyone seeking to build a deeper connection with the cards, Dean's book is woefully inadequate. There's little discussion of how to apply these meanings in a reading, making it feel more like a reference list than a teaching tool. The inclusion of spreads is also underwhelming. The explanations are rushed, and there's minimal guidance on how to actually use the spreads to uncover more complex layers of meaning. Instead, the book seems content with looking comprehensive rather than being genuinely comprehensive, resulting in missed opportunities for true exploration. For those serious about learning Tarot, I would recommend seeking out alternative resources that respect the intricacies of the cards rather than glossing over them. =====It seemed like a great idea and was simple enough to remember as a starting point. Once I found this excellent guidebook, I wish I had started with it. It's very easy to read, clear in its direction, and enjoyable to flip through pages. There is a traditional history section for the main cards that I really enjoy reading about. The author does an excellent job of cutting through explanations of the cards by keeping them simple, direct, and spot on. She also talks about reversals with each card. Now that I'm more comfortable with my practice, this book has become my go-to reference (there's too much in that journal of mine!)April 4, 2020An excellent guide for both beginners and experienced tarot readers alike. It provides great information on getting started with tarot. What I love about this book is that it's very colorful, drawing you in. The information provided is not lacking. Each card is thoroughly explained, including planet/zodiac/element/Chakra/Kabbalah/Tree of Life Path/astrological association, the upright meaning, symbols used, and reversed meaning. It also provides information on what that card means when shown with additional pages, knights, queens, kings. I always recommend this book to anyone wanting to learn more about tarot. Unlike other books, you don't have to start on page 1. You can look up what you want, read it from cover to cover, or bounce around to whatever works best for you.companion-or-guide-tarot-or-runesApril 13, 2024This was my introduction to Tarot and Dean's book offers a great starting point for beginners, providing essential tips for card interpretation. With Dean's insights, readers learn to connect the cards with their intuition, focusing on key elements to unlock their meanings. There are detailed upright and reversed meanings, alongside astrological, numerological, and kabbalistic associations, enriching the understanding of each card. Dean delves into magical symbols and card reflections, elucidating how cards interact within a spread. Appendices on crystals, chakras, and Tree of Life pathways further enhance comprehension. I was particularly intrigued by the historical sections, which offered more depth than books solely focused on interpreting the cards. Overall, Dean's book is an indispensable companion for Tarot enthusiasts at all levels of expertise. July 10, 2023An excellent book for anyone just starting out with tarot and wants to get a better grasp of how to read the cards individually without relying on that LWB and to learn how to do proper readings. This book delves into what each individual card means, connection to astrological signs and other cards in the deck, and the symbolism used throughout the tarot. It also goes into astrological tie-ins and spreads. No book covers it all, but this is a good one to add to your collection. If you're into kindle books and like to save shelf space, the Kindle was inexpensive when I purchased it and it's a well-formatted and enjoyable edition to have wherever you are. tarot-lenormand-astrologyMay 18, 2021This is the third beginner tarot book I read, and so far, it's my favorite. It has some interesting spread options that I hadn't seen before, and the full-color illustrations and explanations are excellent. Unlike other beginner tarot books, there is less emphasis on literal interpretation of the cards and more guidance on what the cards symbolize, which is far more helpful to me as someone who is exploring tarot as a way of gaining insight into my own intuition.I would probably call this 4.5 stars, leaving some room available for even better books that might be out there :)February 26, 2018The descriptions and information on the cards are very good.The part about using the cards, (silk scarfs, vibrations, energies, chrystals) is based on the writer's personal belief system, I did not find that very useful.I would recommend the book for the explanations of the cards. From basic, practical meanings to historical, astrological background and the kabalah. All well explained and well written.April 22, 2022This is a very good reference book for Tarot. I use it daily to help me interpret my morning tarot card spread. As a student of tarot for a few years, I ===== Liz Dean's book, "The Ultimate Guide to the Tarot," received generally positive reviews from reviewers, despite some minor inaccuracies in the card descriptions. The reviewer appreciated the book's comprehensive nature but deducted a star due to these errors. They highly recommend the book to those seeking an authoritative tarot reference. Amazon provides design information and a copyright notice. ----- Liz Dean is widely recognized as a leading expert on tarot, offering guidance that complements various readers' skill levels.
