Matching five-of-a-kind increases sentiment by 15 points. The game requires an initial boost in sentiment and passion to progress effectively. Sentiment is necessary for gift items, while passion boosts multipliers when matching specific affection tokens with a date's preferences. It's essential to match at least four tokens instead of three to increase power token creation odds. Starting with the Suede Ankle Booties provides +3 sentiment, followed by the Leopard Print Pumps, which increases moves when matching four or more affection tokens. When facing multiple broken hearts on the board, using items like Stuffed Bear or Stuffed Whale can replace them with passion tokens. Acquiring a perfume that creates desired tokens and matching flowers to consume those same tokens enhances gameplay. Traits, such as Talent, Flirtation, Romance, Sexuality, Passion, Sensitivity, Charisma, and Luck, are leveled up using Hunie currency earned through puzzle solving and gift-giving. Hunie can be obtained by talking to girls, answering their quizzes correctly, or asking new questions. Each Trait level increase allows for improved gameplay performance. The eight Traits can be enhanced up to six times each. Munie is another in-game currency used to purchase items from the Store. Munie is earned by taking a girl on a date and playing puzzle games. Items categorized as Gifts, Unique, Food, or Drinks have distinct requirements for use. Giving gifts with a star next to them earns Hunie, while those with a heart offer additional rewards and gift boxes. In-game currency and item management are crucial for progress. The game saves automatically when switching locations or time of day. Unique gifts grant permanent bonuses when interacting with specific girls. Food and Drinks can increase the nutrition meter's bars, allowing girls to receive gifts.Intoxication Meter Guide to Winning Over the Perfect Girl ========== When it comes to dating, drinks will indeed add bars to your intoxication meter. With the meter sitting below the nutrition meter, you'll be in for a wild ride with a certain lady. The key is to keep that Hunie level up while navigating the ups and downs of conversation. The meter itself has 12 bars, each representing a level of intoxication. When you meet a new girl, it's completely empty – give it some time to reset. Once the bar reaches maximum capacity, be prepared for an intense and potentially messy experience. Date Gifts and Tokens To make things more interesting, there are several date gifts that will aid in your conquest. These gifts come with various effects on the intoxication meter, including: * Drops: Lowering Passion levels back down to zero and giving +2% of total Affection goal for each Passion stage lost. * Gold Earrings Jewelry * Silver Ring Jewelry * Pearl Necklace Jewelry * Hoop Earrings Jewelry * Lovely Ring Jewelry * Pink Lily Flowers * Blue Orchid Flowers * Orange Cosmos Flowers * Red Tulip Flowers * White Pansy Flowers * Sunflower Flowers Heels and Platforms – A Great Boost to Your Moves Certain types of shoes can also give you an edge. Leopard Print Pumps will increase your moves by one for every 4-of-a-kind (or more) Affection token match, while Vintage Platforms allow you to select a token type without losing any moves until a match is made. Gifts and Tokens – The Rest of the Story There are many other gifts and tokens available in the game. Some have effects that can be beneficial during a date, such as Cork Wedge Sandals which will prevent tokens from being consumed for the remainder of the date. Other gifts include: * Eyelash Curler Cosmetics * Makeup Kit Cosmetics * Hair Brush Cosmetics * Shiny Lipstick Cosmetics * Nail Polish Cosmetics * Compact Mirror Cosmetics * Rose Perfume Perfume * Sea Breeze Perfume Perfume * Lilac Perfume Perfume * Peach Perfume PerfumeWhen it comes to a specific affection tokon, the gifts she likes, the food she likes, the drinks she likes and her alcohol tolerance, and the unique items she loves. This can be used instead of meeting up with a girl and browsing a store to see if something is available that she will like. Also, make sure you focus on the affection tokon she likes when playing the puzzle game! The second page of a girl’s profile lists all the questions you can ask them and the answers they will gived.
